DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, “ a tip extension element coupled to the retractable tip and disposed in the cap” as recited in claims 21 and 33, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

Claims 21, 23, 25, 33, and 35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, does not provide support for the new added limitations to the independent claims 21 and 33 “ a tip extension element coupled to the retractable tip and disposed in the cap”.

Dependent claims 23, 25, and 35 are also rejected for incorporating the defects from their respective parent claims by dependency. Furthermore, claims 25 and 35 are dependent on the canceled claims 24 and 24, respectively.

Allowable Subject Matter

Claims 26, 28-32, and 36 are allowed.
